

Micro Nutrients should be used with either Grow or Bloom Nutrients. It provides additional nutrients, such as Calcium and Iron necessary for ideal growth. Micro Nutrients are used through all stages of growth and flowering/fruiting.

- Always use with Grow Nutrients or Bloom Nutrients for improved results.
- Refer to www.xnutrients.com for feeding schedules and amounts
- Maintain pH between 5.5 and 6.5. Use pH Up/Down to maintain water quality.
- Use a conductivity or ppm meter to control nutrient solution strength.
- Drain and replace nutrient solutions every two weeks to maintain an optimal solution.
- For all hydroponic and continuous liquid feed programs.

Keep out of reach of children
Protect from freezing / direct sunlight
