BOUNTIFUL BASICS

XNUTRIENTS

INFINITE ORGANICS

- Grow Nutrients are well suited for any plant during its growth stages.
- Basic Bloom Nutrients are designed for the flowering or fruiting stages of a plant.
- Micro Nutrients provides all the important secondary nutrients necessary for proper growth. It is used with Grow and Bloom.

- Ful-Potential is a fulvic and humic acid product designed to increase nutrient efficiency.
- Amino Blast provides 17 amino acids to your plant for explosive growth.

PHENOMENAL FOLIAR

- Grow Spray is foliar spray applied to a plant's leaves during vegging to increase growth. A water based surfactant for uptake is built into the Grow and Bloom Spray formulas.
- Bloom Spray is specifically designed for the flowering or fruit stage to increase yield.

FINISHING TOUCH

- Bloom FX is a bloom booster. It is designed to give you larger, fuller and denser flowers.
- CalMagX adds additional calcium, magnesium and iron.
- Silica provides increased levels of potassium and silicon to strengthen plant tissue by building stronger cell walls.
- Flushing Solution gently dissolves residual salts and provides natural carbs to enhance the aroma and oil content of your crop.

pH POWERHOUSE

- pH Up increases pH allowing for maximum nutrient uptake.
- pH Down Concentrate is power packed for decreasing pH, a little goes a long way.

CUTTING CARE

- MX Gel is a rooting gel that provides the necessary ingredients to generate roots from stem or leaf cuttings.
- Magic Mist foliar spray specifically designed for clone nutrition, coming soon!
